

Environmental Policy

Scope

To reflect the commitment of management towards compliance with applicable environmental legislation and regulations and continuous improvement of the environmental management system.

Purpose

To commit to the environmental management system implemented by Period Home Brick Restoration & Constructions Pty Ltd in compliance with the International Standard AS/NZS ISO 14001.

Accountability

Period Home's EMS has been designed and written by management and has been allocated to Dean Luland to enforce and maintain compliance. It is also the responsibility of all the employees/sub-contractors of Period Home Brick Restoration & Constructions Pty Ltd to comply.

Actions

The company is committed to:

- Reduce any significant environmental impacts of construction work through the use of integrated environmental management processes and planning.
- Development of environmental performance evaluation procedures
- Prevent pollution, reduce waste and consumption of resources such as materials and energy
- Staff training
- Involvement of a communication with interested parties
- A culture of preventative action rather than corrective action
- Using reviews to monitor and re-evaluate environmental objectives and targets
